10. Estimated time required to construct works.....30-60 days per well, depends on depth and  
If well completed, describe works.  
complications encountered while drilling.

11. Estimated time required to complete the application of water to beneficial use.....Water development will  
probably extend over a period of at least 10 years. (?)

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual  
consumptive use: Expansion of wells will be done to conform to the urban and  
commercial water demands of the Las Vegas, North Las Vegas,  
and Henderson areas. The number of wells drilled will depend on the  
water development plan which is acceptable to the Dept. of Water  
Resources. This plan can be presented once we have the information in  
hand by which a plan of intelligent development can be formulated.  
This information will hopefully be obtained by the exploration-develop-  
ment drilling program outlined in our previous application for permit  
and waiver for exploration.
